EXPERIENCE

Professional development | Career Break

Oct 2023 - Present

- Learning Deutsch
- Developing Open Source Projects

Software Developer | Ollang inc.

June 2022 - Sep 2023

- As a software developer, Mostly I worked on the Web, and sometimes I contributed back-end side. The team I worked for was 5 people. I have contributed/created 5 Application directly. We developed Ai Dubbing localization tool and subtitle tool. Netflix, W4TCH, and some Big Turkish TV channels were our customers who used our tools. I developed a Subtitle creator tool. (I think this tool is better than YouTube's subtitle tool). I contributed Ai Dubbing tool. This tool generates Text-to-speech and implements video. Also We followed Clean Code Rules, and used some linter(ESLint, Prettier, Husky) for good code quality. We followed agile scrum methodologies. I contributed/ created 5 applications directly.
- Reviewed colleague's codes/ pull requests (Git VSC).
- had pair programming with my teammates.
- Dev Environment: VS Code, macOS, Linux Debian, Git VSC,
- Project Management: Atlassian Jira
- On Front-end side: i used Angular(10...15), TailwindCSS, SCSS, Typescript, ESLint, WordPress, Angular Material, RxJS, ApexChart, Reactive Forms Module, HttpClient Module
- on Back-end side: NestJS, Loopback, Node.js, Docker, MongoDB, Redis, RabbitMQ, JavaScript, AWS S3,
